

If you've tried everything under the sun to get relief from your pain – with no success – I encourage you to read on.

## **“What Your Doctor Won't Tell You: I Reveal the Best-Kept Secret to Finding Freedom From Arthritis, Backache, and Joint Pain – For Good!”**

**Safe, all-natural magnetic therapy is gaining new respect as an effective way to treat chronic pain and other ailments.  
Say goodbye to costly pills and treatments and feel relief in just *days!***

November xx, 20xx

**From the desk of Philippe xxxx:**

Dear Friend,

**Do you ever feel as if you're sitting on the sidelines of life, watching the world go by?**

Maybe you feel a bit depressed, wishing that you could enjoy the active, joy-filled life that so many others seem to experience. If only you could. The aches and pains, fatigue, and restless nights seem to keep you in a constant state of inactivity.

**Yes, chronic pain will do that to you.**

I know, because I've been there. For many years, I suffered from an excruciating condition called Lumbago. My lower back ached night and day; it was like a nightmare I just couldn't wake up from. I spent many long and agonizing nights trying to find just the right position that would allow me precious sleep. Even laughing or coughing was enough to send my back muscles into spasm of burning pain!

**Frankly, my life had become a living hell.**

My doctor, at his wits' end because nothing seemed to help me, scheduled me for surgery. It was a drastic step, but I was given a choice: go under the knife, or spend the rest of my life in pain.

**Then, something AMAZING happened.**

A good friend told me about an alternative treatment for pain called Magnetic Therapy. He had been using Magnetic Therapy himself – in the form of a simple, silver-colored magnetic bracelet he wore around his wrist.

**I'll be honest: My first reaction was to laugh.**

Magnets? How could they possibly help with the kind of pain I'd been tormented with for years?

But, having the utmost faith in my friend, I purchased a Magnetic Therapy Bracelet of my own and wore it for a few days – just to see what would happen. After the first day, I noticed I felt better than usual, but I chalked it up to coincidence. I was still skeptical.

However, on the fourth morning after putting on the Magnetic Therapy Bracelet, I woke up and had a strange feeling. I soon realized what it was: I had slept soundly through the night - for the first time in years! **And what's more, my back pain was gone!**

## A Gold Medalist Raves About Magnetic Therapy!

"I've used hundreds of pain relieving products from all over the world and... bio magnetic therapy products have given me the best results."

- Kurt Angle, 1996 Olympic Gold Medalist, Wrestling

I could hardly believe it - how could a bracelet whisk away my pain 'just like that' ... just like magic? There were times where I tried to stop wearing it. And I'll tell you right now ... the pain *always* came back.

So I put my Magnetic Therapy Bracelet back on one day ... and this time it was for good. **That day I said goodbye to a longtime companion, Pain. I know that devil will never show his face on my doorstep again.**

I can't tell you how incredibly grateful I was to my friend ... and to the manufacturer of the Magnetic Therapy Bracelet that really and truly changed my life. I vowed that I would spread the word about Magnetic Therapy to anyone I could.

But more on that later. I know your head is probably spinning right now. Magnets and pain relief, is it truly possible?

**Yes, and let me explain.** The healing phenomenon of magnets is nothing new. It goes back many years. Way back.

## Cleopatra Swore by Magnets!

"Magnetic therapy" is the safe and non-invasive practice of applying magnetic fields to various parts of the body to accelerate healing and relieve pain. Though this may be the very first time you're hearing about its wonders, it is actually an age-old remedy. One of the earliest known cases of people using magnets for healing was in 111 B.C., when Aristotle carefully documented his incredible findings on using magnets to relieve pain.

Aristotle was not the only disciple of magnetic therapy. This practice was also widely respected in Ancient Greece for its potent healing powers. The Chinese have used magnets for thousands of years. Even Cleopatra, the Egyptian Queen, was known to have faithfully worn a magnet on her forehead to slow down the aging process.

**Instead of turning our backs on history, we must learn from our ancestors and embrace the wisdom they possessed.**

Today, magnets have helped millions of people reclaim their lives and rejuvenate their bodies. Magnetic therapy stimulates our body's natural healing process and provides relief from arthritis, joint pain, inflammation, and sleep – all without any adverse side effects whatsoever. Not to mention, **Magnetic Therapy is much more cost effective than traditional medical treatment.** Imagine not having to pay the skyrocketing costs of prescriptions and doctor's visits ... those savings add up fast!

## "I Could Feel My Fingers Again!"

"I had surgery to remove painful nerves in my left hand, and it left me with bad circulation and numbness. I tried a Magnetic Therapy Bracelet and in about an hour I could feel the ends of my fingers again. I won't take it off!!"

-C. J., Sarasota, Florida

## "Ok, You Have My Attention, But How Does it Work?"

As with most forms of alternative medicine, the precise ways in which Magnetic Therapy works are not completely clear. That said, there are many theories had by both scientists and doctors on how magnets work their wonders.

### Some theories on the incredible healing power of magnets ...

- Magnets affect the iron component of blood, thereby increasing circulation to the areas where magnets are applied.
- Magnets energize and oxygenate our white blood cells, which are our bodies' natural healing agents. This increase flow of oxygen stimulates the body's natural healing mechanisms, which in turn reduce the inflammation that causes pain.
- Magnets prevent muscle spasms that cause many types of bodily pain, by modifying our muscle contractions.
- Magnets modify the electrochemical reactions that take place within nerve cells, which affects their ability to transmit pain information to the brain.

### What the Medical World is Saying About Magnetic Therapy

"Pain is a universal condition - all of us have it at one time or another.. Many people don't like taking drugs, and they are seeking alternative approaches for therapy... I was a skeptic about magnets until I did a study that proved they worked!"

- **Carlos Vallbona, M.D.**

*Baylor College of Medicine, Dept. of Family and Community Medicine and Distinguished Service Professor*

"This is not magic, there is nothing mystical about this... We have tested magnets on more than 5,000 patients and there is absolutely no doubt... the treatment works!"

- **Robert Holcomb, MD**, *Assistant Professor a Neurology at Vanderbilt University Medical Center*

"Magnetic Therapy has been a positive experience for pain relief and increased energy. This has been a very effective alternative to conventional medical therapy."

- **Edward W. Salko, Jr., D.O., F.A.A.F.P.**

The truth is that the actual pain relief mechanism of magnetic energy may never be fully understood by modern science. The complexities with which it interacts with our body's functions are vast, and healing occurs on a microscopic level.

**All science aside, the most important thing you need to know is that Magnetic Therapy works.**

**Still not convinced? Want more proof? Consider these recent studies:**

- **Study #1:** Researchers in the UK have shown that wearing a magnetic bracelet can ease pain caused by arthritis of the hips and knees. This British Medical Journal study found a *significant reduction in pain* among 65 individuals wearing the bracelet.
- **Study #2:** Two years ago, a team at the University of Virginia gave magnetic mattress pads to a group of individuals with fibromyalgia, a rare condition characterized by chronic muscle pain. Compared to a control group that slept on non-magnetized pads, those with the magnetic pads reported *significantly reduced pain* after sleeping on the pads for six months.
- **Study #3:** Researchers at Baylor College of Medicine in Houston have conducted a double-blind test comparing the effects of magnets and sham magnets on the knee pain of 50 patients who had had poliomyelitis. 76% of the patients being treated with real magnets reported a *significant decrease in pain*.

### **"Effective in more than 80% of Patients"**

"They (magnets) have proven effective more than 80% of patients... In some cases such as carpal tunnel syndrome. . the success rate is 95%. There's no doubt about it - millions of people can be helped from chronic pain by the use of magnets."

- **W. Bradley Worthington, MD**, Former President of the Tennessee Society of Anesthesiologists

Before I discovered the extraordinary relief of wearing a Magnetic Therapy Bracelet, I felt as if I was missing out on so much in my life.

If you've been suffering from the devastating effects of joint and back pain, there's no doubt you've felt this way too. So let me ask you a question ...

### **"Isn't it About Time You Got Back to Living?"**

**Arthritis, rheumatism and back pain affect one in three adults in the United States.** More than 50% of these individuals feel there is nothing that can be done to ease their pain. Instead, they suffer their terrible discomfort in silence, consuming expensive medications which do little or nothing to end their misery.

### **You don't have to be one of them. Break free from the 'pain prison'!**

Just close your eyes and imagine it ... a life without pain. It's the life you've always dreamed of, isn't it?

#### **Instead of sitting in the doctor's office, you could be ...**

- ... waking up in the morning after a good night's sleep, no more tossing and turning.
- ... enjoying all the activities you used to love: golf, tennis, swimming – even jogging!
- ... spending time outdoors with your friends and family again
- ... experiencing increased energy levels and a renewed sense of health and well-being

### **"The Pains Stopped!"**

"When I heard about magnets I had been living with pain for about a year. My forearm was crushed in a hydraulic lift gate, severing a tendon and breaking the bone. It didn't heal right and I had constant twinges of nerve pain throughout the arm, especially after using the computer. Within about 20 minutes of wearing a magnetic bracelet the pains stopped, and now I wear one most of the time. If I go longer than 24-hours without my bracelet I can tell a difference. I have

friends who wear the bracelets and no longer have trouble from carpal tunnel syndrome. My mom swears the magnetic insoles keep her feet from feeling achy and burning at the end of the day.

**-J.J., Lehigh Acres Florida**

All of this is true, and I am living proof that Magnetic Therapy really works. Remember how I said that I wanted to spread the word about Magnetic Therapy Bracelets... in hopes that others could benefit from its healing powers - just like I did?

**Well you're in for a pleasant surprise.**

It isn't enough for me to just *tell* you about how unbelievably effective Magnetic Therapy is ... I wanted to *show* you.

I firmly believe that Magnetic Therapy Bracelets are the most affordable, easiest, and effective way to experience the healing powers of Magnetic Therapy. That's why I've hand-selected 10 of the best Magnetic Therapy Bracelets on the market, and made them available for your purchase right here on this website.

**Here's why I chose these bracelets:**

- ▶ **Pain relief in a matter of days:** You'll experience relief from debilitating Arthritis, rheumatism, back pain and other aches in a very short amount of time – even days!
- ▶ **No pills to pop, no time-consuming treatments:** You can enjoy the convenience of an easy-to-wear, beautiful-looking bracelet that you can put on and forget about, it's working 24 hours a day!
- ▶ **All-natural remedy:** Magnetic Therapy is 100% ALL NATURAL. No chemicals, no side effects, period.
- ▶ **Save money:** Forget spending tons of your hard-earned cash on prescriptions that don't work and endless appointments with "specialists" who can't seem to help you no matter what they do (or how much they charge). Your Magnetic Therapy Bracelet is an affordable, one-time purchase that will provide you *years* of lasting pain relief.
- ▶ **Quality, Durable Construction:** Our Magnetic Therapy Bracelets aren't cheap knockoffs ... they're the real thing! All of our bracelets are made from durable surgical steel – and some are even plated in sterling silver or genuine 18K gold! These products are a prime example of beauty *and* function. They also come with a 30-day manufacturer's warranty.
- ▶ **A variety of stunning styles:** Whether you're looking for something that's dazzling or simple ... gold or silver – we've got a bracelet style that perfectly suits your taste and lifestyle!

And what's more ...

## **Our Bracelets are Guaranteed!**

We stand behind our products 110%, which is why we offer our **30-Day Guarantee**. If your Magnetic Therapy Bracelet is not in absolute *perfect* condition when it arrives at your door, just send it back and we will cheerfully replace or exchange the item.

If you're glad to know how confident we are in the products we sell, you'll also be thrilled to know:

**That's not all.**

Order your Magnetic Therapy Bracelet today, and we'll throw in a free bonus:

**FREE Bonus Guide! "The User's Guide to Magnets for Healing"**

This comprehensive, information-packed guide includes anything and everything you wanted to know about Magnetic Therapy and its applications!

## You'll learn:

- How magnetic mattress pads can help you combat insomnia and get a better night's sleep
- How small magnetic "dots" can be used to stimulate ancient medicinal energy points and promote good health
- How magnetic patches can be used all over the body to target specific areas of injury and pain
- Where to find these and more magnetic products on the web ...at the best prices

## **A Magnetic Therapy Bracelet changed my life. It can change yours too. I promise you that.**

These bracelets are *the* choice for anyone seeking a safe, inexpensive and natural alternative for pain relief. Doctors, therapists, professional athletes, and health-conscious consumers around the globe are discovering how they can break free of the chains of chronic pain and inflammation.

If you suffer from

- **Shoulder pain**
- **Neck pain**
- **Back pain**
